MORE CONVENIENCE FROM KELLOGG

Another dual purpose convenience item by Kellogg
"Executive Exclusion" switch—Lift plunger to remove extensions from line for privacy. Coded DK-502 in standard dial telephone model.
"Lift to dial or talk" switch. Eliminates party line interruption. Lift handset to determine busy condition on the party line, lift plunger to dial or talk. Coded DK 500-BA (9).

DK-544

DK-510

The four button DK-544 may be connected to three incoming lines, or like the six button, wiring may be varied to meet specific applications . . . for example, two subscriber lines and one tie-line.

By the flick of a button, one telephone serves as two. When two incoming lines are needed . . . the DK-510 Two-In-One is the answer. The full color range is also available in the two line set.
