

The New

Masterphone

THIS illustration shows the newest type telephone. It is known as the "Masterphone."

The beauty of this instrument adds that touch of modernism to your home. It harmonizes with your furnishings wherever installed.

As an organization devoted to serve you, we feel that you are entitled to every convenience we can offer. This

new Masterphone is offered as part of our service, and believe that you will be as proud as we are to have a telephone of this type in your home.

The cost of a telephone is practically insignificant. May we send a representative to explain this modern convenient service? This does not obligate you in any way.

*Just think of the importance
of a telephone at home!*

When illness calls suddenly *{possibly in the wee small hours!}*

When a stranger is prying your window! *{Can you phone for help?}*

On stormy days *{you do your shopping by telephone!}*

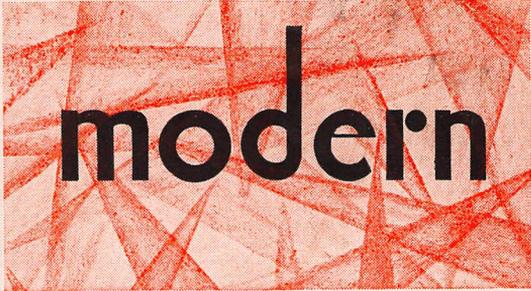

When emergencies arise *{a gas or water pipe breaks when you are alone!}*

When someone wants to reach you with an important message in a hurry *{probably from out of town!}*

Many more everyday occurrences such as these make us realize that the telephone is a necessary part of our lives. Be prepared to meet these occurrences—have a telephone in your home. We all deserve this modern convenience and comfort.

Let us explain how you can have this telephone service for only a few cents a day.
